

YOZGAT BOZOK UNIVERSITY PART-TIME STUDENT EMPLOYMENT

Information for Students and Applicants

Part-time students are employed in academic and administrative units of our University during each academic year. The number of students to be employed and the wages to be paid are determined by the University Executive Board.

The application procedures and evaluation process for part-time students are carried out in accordance with the “Procedures and Principles for the Employment of Part-Time Students at Higher Education Institutions.”

Applications are announced by the Health, Culture and Sports Department at the beginning of October and during periods when there is a need, through the University website and the announcement boards of the relevant units. Students to be employed are selected based on the lists generated through electronic applications and the scoring system conducted by the relevant system.

The announcements provide detailed information regarding the units where students will be employed, the required qualifications, the number of students to be employed, working hours, hourly wages, and other relevant conditions.

This information is provided for institutional and web-publication purposes.
