10	Vocabulary: common verbs, present simple tense (positive/negative forms), present simple question form, how to make "yes/no – wh questions" ?
11	Frequency adverbs and expressions, vocabulary: hobbies and free time activitiesi prepositions of time in on at, reading: my daily routine.
12	Present continuous tense (positive and negative forms), present continuous tense question form, vocabulary: clothes, reading: we are having a party!
13	Present continuous or present simple, vocabulary: food and drinks, love, like, dislike, hate +Ving & would like, reading text: what is your favourite activity?
14	Comparatives, superlatives, asas, reading text: my hometown.
15	Final Exam

Course Learning Resources

- 1. English Grammar in Use (Raymond Murphy)
- 2. Essential Grammar in Use (Raymond Murphy)
- 3. Basic English Grammar (Betty Schrampfer Azar)
- 4. New Inside English Grammar (Sevil F. Soylu / Daniş Soylu)

PROGRAM LEARNING OUTPUTS CONTRIBUTION LEVELS

No	Program Learning Outputs	1	2	3	4	5
1	Gains extensive knowledge about the basic chemical properties of matter and uses this knowledge in daily life, industrial scale, and practical chemistry and shares them with the society.	X				
2	Performs experiments, collects data, interprets, evaluates results, defines problems parallel to current technological developments, produces solutions against problems encountered in the laboratory.	x				
3	Calculates and processes chemical information and data.	Х				
4	Applies her/his knowledge and understanding of chemistry to the solution of unconventional qualitative and quantitative problems.	Х				
5	Defines and comprehends chemical concepts and theories in Inorganic Chemistry, Organic Chemistry, Physical Chemistry, Analytical Chemistry, Biochemistry.	x				
6	Can conduct research in the light of scientific data on any subject in the field of chemistry.	X				
7	Writes, presents, discusses scientific material, and presents it orally to a knowledgeable audience.	х				
8	Brings a chemical approach to the solution of environmental problems, makes environmental analyzes and reports.	х				
9	Knows a foreign language at a level to read and understand the basic terms and processes of the chemist profession.	х				
10	Can use computer software and information and communication technologies at the level required by the field.	х				
11	Adapts and transfers the knowledge gained in the field to secondary education.	х				
12	Apart from the field of chemistry, she/he gains knowledge in different branches of science that she feels close to.	х				
13	Carries out a study independently, makes group work and gains the awareness of taking responsibility.	х				
14	They can develop a positive attitude towards lifelong learning and constantly renew their professional knowledge and skills.	х				
15	Have sufficient awareness of the universality of social rights, social justice, quality culture and protection of cultural values, environmental protection, occupational health and safety.	X
