1	course materials containing materials, research methods	gained in the field of archeology, she up-to-date information, applied tools s and techniques applied in field stud nd applied knowledge supported by o	and dies,			X			

2	Students will be able to examine, analyze, discuss and develop comments based on scientific evidence, concepts, ideas and data related to the discipline of archeology with social science research methods.		Х		
3	Have knowledge of Prehistoric Archeology, Protohistory and Near East Archeology and Classical Archeology.		X		
4	Collects, analyzes and applies information about the field of archeology.			X	
5	Follows and shares theoretical and applied information in the field of archeology.				X
6	Have the ability to present the theoretical and applied knowledge gained in the field of archeology.		X		
7	Have the ability to learn the Science of Archeology in a comparative dimension.			X	
8	Gains the ability to use and identify information sources appropriately for archaeological research.			X	
9	It creates a level of critical awareness about ancient cultures and intercultural relations.				X
10	Gains the ability to become conscious about the socio-economic structures and lifestyles of ancient societies.			X	
11	Develops the ability and knowledge to use archaeological research methods to understand ancient cultures.			Х	
12	Students works independently as an individual or takes responsibility as a team member to solve complex and unforeseen problems encountered in the field of archeology.	X			
13	Evaluates and synthesizes the knowledge and skills acquired in the field of archeology with a critical approach.		X		
14	Uses information and technologies at an advanced level, together with the computer software required by the field of archeology.		X		
15	Have the knowledge of architectural and artifact drawing, photographing, computer software and hardware required by works such as archaeological research and excavation.	X			
16	Have the ability to write by using the knowledge and skills obtained in the field of archeology correctly.				X
17	Follows the theoretical and applied information in the field of Archeology using a foreign language and shares this information with experts and non-experts in the relevant field.			Х	
18	To contribute to the awareness of the society by informing people who do not have knowledge about the field and to have a competent understanding of archeology.				X
19	Considers ethical values in studies related to the field of archeology.			Х
