

VISION

As Yozgat Vocational School, our vision is to cultivate generations at peace with themselves and their community, comprehend the beliefs and cultural codes of their own geography, and possess a universal perspective on events inherent in the very meaning of the word university. Our expert teaching and learning staff, while aware of the inherent difficulty of production and aware of the inherent importance of qualified personnel, foster unique and globally recognized approaches. Our management style, which works in harmony with both our academic staff and our administrative and support staff, is committed to providing high-quality service to the students entrusted to our care.
